CLASS 4

AIM: The purpose of the Class 4 program is to bring up the students to the competency level to use their knowledge, skills, and attitudes gained in the first three years to manage common diseases at the primary care level, to distinguish emergent situations, perform the first interventions, and refer to a specialist and to know and apply preventive health services in related clerkships.

LEARNING OBJECTIVES:

At the end of this class, the students should be able to:

- Demonstrate knowledge necessary for recognition, management of diseases and distinguish emergent situations in related clerkships, according to the learning levels mentioned in the National Core Education Program.
- 2. Gather essential and accurate information about patients and their conditions through historytaking, physical examination, and the use of laboratory data, imaging, and other tests.
- 3. Perform various basic procedures according to the learning levels mentioned in the National Core Education Program.
- 4. Communicate effectively and empathetically with patients and their families.
- 5. Establish and maintain effective working relationships with colleagues and health care professionals.
- 6. Utilize the library and its resources to research clinical questions that arise during patient care and management.
- Recognize the importance of cost-effective health care, quality assurance, and practice guidelines in today's health care environment.

INTERNAL MEDICINE CLERKSHIP PROGRAM

INTERNAL MEDICINE						
Cengiz Bölükbaş	Prof. M.D.	Head of the Department				
Fulya Coşan	Prof. M.D.					
Hamdi Levent Doğanay	Prof. M.D.					
Sena Ulu	Prof. M.D.					
Filiz Fusun Bölükbaş	Prof. M.D.					
Yavuz Furuncuoğlu	Assoc. Prof. M.D.					
Eda Altun	Assist. Prof. M.D.					
Ali Durdu	Assist. Prof. M.D.					
Pınar Gökçen	Assist. Prof. M.D.					
Sema Türker	Assist. Prof. M.D.					

AIM: The purpose of the Internal Medicine clerkship is that, taking into account the goals specified in the National Core Education Program (NCEP), to equip students with the knowledge, skills, and attitudes necessary for being able to manage common internal diseases at the primary care level, to distinguish emergent situations, perform the first interventions, and refer to a specialist and to know and apply preventive health services for internal diseases.

LEARNING OBJECTIVES:

At the end of the program, the students should be able to: KNOWLEDGE BAHCESEHIR ÜNIVERSITESI TIP FAKÜLTESI

LO 1.	List the principles of diagnosis, treatment, prevention, and follow-up of internal diseases included in the
	clerkship program according to the learning levels mentioned in the National Core Education Program.
LO 2.	Explain the clinical findings and laboratory findings of diseases that have a high learning level in National
	Core Education Program.
LO 3.	Explain the treatment options of internal diseases that require urgent approach.
LO 4.	List the methods of diagnosis, treatment, follow up and prevention of internal diseases that are frequently
	encountered in the community.
LO 5.	List the symptoms and conditions related to Internal Medicine.
LO 6.	Explain the principles of blood transfusion.

SKILLS

LO 7.	Obtain a general and problem-oriented history in the anamnesis format determined for internal diseases.
LO 8.	Perform and record comprehensive physical examination.
LO 9.	Create a preliminary diagnosis list using anamnesis and physical examination findings.
LO 10.	Request imaging and laboratory tests required for definitive diagnosis and differential diagnosis.
L011.	Distinguish between emergency and non-emergency internal diseases.
LO12.	Perform various basic procedures according to the learning levels mentioned in the National Core
	Education Program.(General Surgery Class 4 Log-book).

ATTITUDES

LO 13.	Dress and look physically appropriate as a medical doctor.
LO 14.	Communicate effectively and empathetically with patients and their families.
LO 15.	Communicate effectively with the healthcare team.
LO 16.	Establish and maintain effective working relationships with colleagues and health care professionals.
LO 17.	Respect patient privacy information.
LO 18.	Recognize the importance of scientific method in the treatment of patients by approaching diseases within
	the framework of evidence-based medical practices.
LO 19.	Utilize the library and its resources to research clinical questions that arise during patient care and
	management.
LO 20.	Recognize the importance of cost-effective health care, quality assurance, and practice guidelines in
	today's health care environment.
	KAIIZ

CODES*	LEARNING LEVELS
А	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
TT	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
к	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

Clinical Symptom/Sign/Condition	Diseases / Clinical Problems	Learning Level	Topic (1 hour=40 minutes)	Learning Objective
Bad breathe, changes in concioussness, cramp, seizure,	Acid-Base Disorders	А	Acid-Base Disorders (1 hour)	LO 1, LO 3, LO 18

LOG-BOOK

İÇ HASTALIKLARI TEMEL HEKİMLİK UYGULAMALARI	Öğrenme Düzeyi	İMZA
Genel ve soruna yönelik öykü alabilme	4	
Batın muayenesi	4	
Genel durum ve <u>vital</u> bulguların değerlendirilmesi	4	
Kardivovasküler sistem muayenesi	4	
Kas-iskelet sistem muayenesi	3	
Solunum sistemi muayenesi	4	
Aydınlatma ve onam alabilme	4	
Epikriz hazırlayabilme	4	
Hasta dosyası hazırlayabilme	4	
Reçete düzenleyebilme	4	
Tedaviyi <u>red</u> belgesi hazırlayabilme	4	
Direkt radyografileri değerlendirebilme	3	
<u>Glukometre</u> ile kan şekeri ölçümü yapabilme ve değerlendirebilme	4	
Kanama zamanı ölçümü yapabilme ve değerlendirebilme	2	
Laboratuvar inceleme için istek formunu doldurabilme	4	
Laboratuvar örneğini uygun koşullarda alabilme ve laboratuvara ulaştırabilme	4	
Mikroskop kullanabilme	4	
Periferik yayma yapabilme ve değerlendirebilme	3	

Tam idrar analizi (mikroskobik inceleme dahil) yapabilme ve değerlendirebilme	3	
Tarama ve tanısal amaçlı inceleme sonuçlarını yorumlayabilme	3	
Akılcı ilaç kullanımı ilkelerini uygulayabilme	4	
Damar yolu açabilme	3	
El yıkama	4	
Hastadan biyolojik örnek alabilme	3	
IM,IV, SC, ID enjeksiyon yapabilme	4	
İdrar sondası takabilme	3	
Kan basıncı ölçümü yapabilme	4	
Kan transfüzyonu yapabilme	3	
Kapiller kan örneği alabilme	4	
Lavman yapabilme	3	
<u>Nazogastrik</u> sonda uygulayabilme	3	
Parasentez yapabilme	1	
Pulsoksimetri uygulayabilme ve değerlendirebilme	4	
PERFORMANS NOTU

AIM: The purpose of the General Surgery clerkship is to equip students with the knowledge, skills, and attitudes necessary for being able to recognize adult health problems that require surgical treatment; to distinguish emergent situations, perform the first interventions, and refer to a specialist.

LEARNING OBJECTIVES:

At the end of the program, the students should be able to:

KNOWLEDGE

LO 1.	List the principles of diagnosis, treatment, prevention and follow-up of surgical diseases included in the
	clerkship program according to the learning levels mentioned in the National Core Education Program.
LO 2.	Explain the clinical findings and laboratory findings of surgical diseases have a high learning level in
	National Core Education Program VERSITESI TIP FAKÜLTESI
LO 3.	Become familiar with various surgical procedures.
LO 4.	Be familiar with action, dosage, and use of common pharmacologic agents used in surgery (analgesics,
	antibiotics, anticoagulants, etc.).
LO 5.	Explain the treatment options of surgical diseases that require urgent approach.
LO 6.	List the symptoms and conditions related to General Surgery.

SKILLS

LO 7.	Obtain an appropriate medical history from adult surgical patients.
LO 8.	Perform and record comprehensive physical examination.
LO 9.	Interpret common laboratory and radiologic tests.
LO 10.	Clerk, investigate and present patients during ward rounds.

- **LO 11.** Apply specific protocol in the operating room (scrubbing, gowning, gloving).
- LO 12. Perform various basic procedures according to the learning levels mentioned in the National Core Education Program.(General Surgery Class 4 Log-book).

ATTITUDES

LO 13.	Dress and look physically appropriate as a medical doctor.	
LO 14.	Communicate effectively and empathetically with patients and their families.	
LO 15.	Communicate effectively with the perioperative team.	
LO 16.	Establish and maintain effective working relationships with colleagues and health care professionals.	
LO 17.	Respect patient privacy information.	
LO 18.	Understand the current legal and ethical aspects of consent for surgery.	
LO 19.	Utilize the library and its resources to research clinical questions that arise during patient care and	
	management.	
LO 20.	Recognize the importance of cost-effective health care, quality assurance, and practice guidelines in	
	today's health care environment.	

CODES*	LEARNING LEVELS
A	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
тт	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
к	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

Clinical Symptom/Sign/Condition	Diseases / Clinical Problems	Learning Level	Topic (1 hour=40 minutes)	Learning Objective
Abdominal pain	Abdominal Trauma*	A	Abdominal Trauma	LO1, LO2, LO 5, LO 20
Abdominal mass	Inguinal and abdominal wall hernias*	T-A	Abdominal Wall Hernias	LO1, LO2, LO 3, LO 20
Bad breath changes in consciousness, cramps, seizures	Acid/base regulation and disorders*	А	Acid/base regulation and disorders	LO1, LO2, LO4, LO 20
Nausea, vomiting, abdominal pain, distention	Acute Abdomen Syndrome*	T-A	Acute Abdomen	LO1, LO2, LO3, LO4, LO 5, LO 20
Nausea, vomiting, abdominal pain, distention	Acute Abdomen Syndrome*	T-A	Acute appendicitis	LO1, LO2, LO3, LO4, LO 5, LO 20
Nausea, vomiting, abdominal pain	Acute Pancreatitis	А	Acute Pancreatitis	LO1, LO 2, LO 5, LO 20
Amenore, weakness/fatigue, hypotension, muscle weakness, weight loss	Aderenocortical Insufficiency	Ön T-A	Adrenal Gland Diseases	LO1, LO 6, LO 20
Anorectal pain, hematochezia, anorectal bleeding	Anal Fissure	тт	Anal Fissure	LO1, LO2, LO3, LO 20
Anorectal pain	Perianal abscess	Т	Anorectal Abscess and Fistula	LO1, LO2, LO3, LO 20
Gynecomastia, breast pain, breast mass	Breast diseases and tumors	ÖnT-K	Benign breast diseases	LO1, LO 20
Breast pain, breast mass	Breast diseases and tumors	ÖnT-K	Breast Cancer	LO1, LO2, LO 3, LO 20
Hypothermia, hyperthermia, burns	Burns*	Т	Burns	LO1, LO2, LO 20
Corrosive substance exposure	Foreign body problems*	Т-А-К	Caustic Injuries, Corrosive Esophagitis	LO1, LO2, LO4, LO5, LO 20
Nausea, vomiting, dyspepsia, abdominal pain, colic pains (renal, biliary, intestinal)	Cholecystitis, Cholangitis	ÖnT	Cholecystitis, Cholangitis	LO1, LO 20
Diarrhea, abdominal pain, flank pain	Chronic Pancreatitis	ÖnT-K	Chronic Pancreatitis	LO1, LO4, LO 20
Anemia, anorectal pain, diarrhea, constipation, hematochezia, anorectal bleeding, hepatomegaly, abdominal pain, abdominal distention, melena, hematemesis, pelvic mass	<i>"Scientia et amon</i> Gastrointestinal System Tumors	'e vitae'' ÖnT-K	Colorectal Cancers; Gastrointestinal Stromal Tumors; Biliary System Structures and Malignancies	LO1, LO4, LO 20
Hepatomegaly	Cyst Hydatic Disease	ÖnT-K	Cyst Hydatic	LO1, LO2, LO4, LO 20

Dyspnea, cyanosis	Diaphragma Hernias	ÖnT	Diaphragma Hernias	LO1, LO 20
Bad breath, hematochezia, anorectal bleeding, constipation, abdominal pain, melena, hematemesis, dysphagia	Diverticular Diseases	ÖnT	Diverticular Diseases	LO1, LO 20
Hepatomegaly, abdominal pain, abdominal distension, jaundice	Gastrointestinal System Tumors	ÖnT-K	Pancreatic Cancer	LO1, LO4, LO 20
Hepatomegaly, abdominal pain, abdominal distension, jaundice	Gastrointestinal System Tumors	ÖnT-K	Endocrine Tumors of Pancreas	LO1, LO4, LO 20
Hepatomegaly, abdominal pain, abdominal distension, jaundice	Gastrointestinal System Tumors	ÖnT-K	Cystic Lesions of Pancreas	LO1, LO4, LO 20
Diarrhea, constipation, abdominal pain, abdominal distention	Gastrointestinal System Motility Disorders	ÖnT	Esophagial Motility Disorders, Achalasia	LO1, LO 20
Abdominal distention, melena, hematemesis	Gastrointestinal System Tumors	ÖnT-K	Esophagus Tumors and Carcinoma	LO1, LO4, LO 20
Hepatomegaly, abdominal pain, abdominal distension, jaundice	Gastrointestinal System Tumors	ÖnT-K	Gallbladder Tumors and Carcinoma	LO1, LO 20
Hepatomegaly, abdominal pain, abdominal distension, jaundice	Gastrointestinal System Tumors	ÖnT-K	Beningn Liver Tumors	LO1, LO 20
Hepatomegaly, abdominal pain, abdominal distension, jaundice	Gastrointestinal System Tumors	ÖnT-K	Hepatocellular Carcinoma	LO1, LO 20
Bad breath, hematochezia, anorectal bleeding,constipation, abdominal pain,melena, hematemesis, difficulty swallowing	Gastrointestinal System Tumors	ÖnT-K	Gastric Cancer	LO1, LO 20
Bad breath, sore throat, nausea, vomiting , dysmenorrhea, chest pain, cough, sputum production, hoarseness, difficulty in swallowing	Gastroesophageal Reflux Disease*	TT-K	Gastroesophageal Reflux Disease	LO1, LO2, LO3, LO4, LO 20
Anorectal pain, hematochezia, anorectal bleeding	Hemorrhoids*	TT-K	Hemorrhoids	LO1, LO2, LO3, LO4, LO 20
Diarrhea, hematochezia, anorectal bleeding, abdominal pain, melena, hematemesis	Inflammatory Bowel Disease	ÖnT	Inflammatory Bowel Disease	LO1, LO 20
	3 5	BAU-Ön T	Intestinal poliposis	LO1, LO 20
		BAU-Ön T	Short Bowel Syndrome	LO1, LO 20
Nausea, vomiting, abdominal pain, abdominal distension, colic pains (renal, bilier, intestinal)	lleus*	A	Intestinal Obstruction	LO1, LO2, LO3, LO 20
Anuria,oliguria, changes in consciousness, weakness, fatigue, cramps, paresthesia, tetany	Fluid and Electrolyte Balance Disorders *	Т-А-К	Management of Surgical Patient and Fluids and Electrolytes	LO1, LO2, LO3, LO4, LO 20

Hepatomegaly, hypertension, snoring, immobilization, weight gain, overweight	Obesity*	т-к-і	Obesity	LO1, LO2, LO3, LO 20
		BAU-BASIC	Organ Transplantation	LO1, LO3, LO 20
Seizures, tetany	Hiperparatyroidism/Hipoparatyroidism	ÖnT	Parathyroid Diseases	LO1, LO 20
Dispepsy, chest pain, abdominal pain, melena, hematemesis, difficulty in swallowing	Peptic Diseases (Ulcer, Gastritis)*	тт-к-і	Peptic Ulcus	LO1, LO2, LO3, LO4, LO 20
Abdominal pain	Peritonitis	А	Peritonitis	LO1, LO 20
	Pressure Injuries	ÖnT	Pressure Injuries	LO1, LO 20
Anuria-oliguria, changes in conscioussness , hypotension	Shock*	А	Shock	LO1, LO2, LO4, LO 20
Fever		BAU-Ön T-A	Surgical Infections	LO1, LO 20
Mass in the neck	Tyroid tumors	ÖnT	Thyroid Tumors	LO1, LO 20
Palpitations, diarrhea, hyperactivity, hypertension, hypothermia, hyperthermia, muscle weakness, weight loss, hair loss, sweating changes, tremor,cognitive disorders, forgetfulness, sexual dysfunction, mood changes, weakness, fatigue, constipation, weight gain, overweight, cramps, edema, sleep related problems	Hyperpertyroidism/Hypotyroidism	T-A-İ/ÖnT	Thyroid Diseases	LO1, LO2, LO3, LO4, LO 20
Immobilization, fever	Trauma and injuries	А	Trauma and Emergency care; Wound Healing	LO1, LO4, LO 20
Fever, hypothermia, hyperthermia	Sepsis	А	SIRS and Sepsis	LO1, LO4, LO 20
Anuria-oliguria, Musculoskeletal pain,	Crush Syndrome	Т-А-К	Crush Syndrome	LO1, LO2, LO3, LO4, LO 5, LO 20
Musculoskeletal pain	Compartment Syndrome	А	Compartment Syndrome	LO1, LO2, LO3, LO 20
Splenomegaly, jaundice, edema, piruritus, bleeding, Aunerating disorders	Liver Cirrhosis	Ön T-K	Liver Cirrhosis	LO1, LO4, LO 20
Splenomegaly, jaundice, dyspnea	Portal Hypertension	Ön T	Portal Hypertension	LO1, LO 20

BAHÇEŞEHİR ÜNİVERSİTESİ TIP FAKÜLTESİ GENEL CERRAHİ ANABİLİM DALI DÖNEM 4 MESLEKİ UYGULAMA KARNESİ 2022-2023

Öğrenci Adı- Soyadı: Öğrenci Numarası :

Mesleki Uygulama Başlangıç Tarihi : /..... /...... /...... Mesleki Uygulama <u>Biitiş</u> Tarihi : /...... /......

GENEL CERRAHİ TEMEL HEKİMLİK UYGULAMALARI	Öğrenme Düzeyi	İMZA
Genel ve soruna yönelik öykü alabilme	4	
Batın muayenesi	4	
Genel durum ve vital bulguların değerlendirilmesi	4	
Digital rektal muayene	3	
Meme ve aksiller bölge muayenesi	4	
Epikriz hazırlayabilme	4	
Hasta dosyası hazırlayabilme	4	
Reçete düzenleyebilme	4	
Direkt radyografileri değerlendirebilme	3	
Dekontaminasyon, dezenfeksiyon, sterilizasyon, antisepsi sağlayabilme	4	
Deri ve yumuşak doku apsesi açabilme	3	
El yıkama	4	
Lavman yapabilme	3	
Nazogastrik sonda uygulayabilme	3	
Parasentez yapabilme	1	

Yara-yanık bakımı yapabilme	3	
Yüzeyel sütur atabilme ve alabilme	3	
Kendi kendine meme muayenesini öğretebilme	4	
Periyodik sağlık muayenesi (görme, işitme, metabolik hastalıklar, riskli grupların aşılanması, kanser taramaları)	4	
PERFORMANS NOTU		

Öğrenme Düzeyi	Temel Hekimlik Uygulamaları Öğrenme Düzeyi
1	Uygulamanın nasıl yapıldığını bilir ve sonuçlarını hasta ve/veya yakınlarına açıklar.
2	Acil bir durumda kılavuz / yönergeye uygun biçimde uygulamayı yapar.
3	Karmaşık olmayan, sık görülen, durumlarda / olgularda uygulamayı* yapar.
- 4	Karmaşık durumlar / olgular da dahil uygulamayı* yapar.
	ndirmeyi / değerlendirmeyi yapar, gerekli planları oluşturur, uygular onuçlarıyla ilgili hasta ve yakınlarını / toplumu bilgilendirir.

PEDIATRICS CLERKSHIP PROGRAM

PEDIATRICS		
Gülendam Koçak	Prof. M.D.	Head of the Department
Ali Haydar Turhan	Prof. M.D.	
Figen Dağlı	Prof. M.D.	
Yılmaz Ay	Prof. M.D.	
Duygu Övünç Hacıhamdioğlu	Assoc. Prof. M.D.	
Fatih Fakirullahoğlu	Assist. Prof. M.D.	
Hatice Gülhan Sözen	Assist. Prof. M.D.	
Serap Ata	Assist. Prof. M.D.	
Safiye Suna Çelen	Assist. Prof. M.D.	
Koray Yalçın	Assist. Prof. M.D.	

AIM: The purpose of the Pediatrics clerkship is that, taking into account the goals specified in the National Core Education Program (NCEP), to equip students with the knowledge, skills, and attitudes necessary for being able to manage common pediatric diseases at the primary care level, to distinguish emergent situations of pediatric patients, perform the first interventions, and refer to a specialist and to know and apply childhood preventive health services.

LEARNING OBJECTIVES:

LEARNING OB.	JEC	FIVE	S:								
At the end of t	he p	orog	ram,	the	stua	lent	s shoul	ld	be able to:		
KNOWLEDGE				-							

LO 1.	List the principles of diagnosis, treatment and follow-up of pediatric surgical and internal diseases included
	in the clerkship program according to the learning levels mentioned in the National Core Education
	Program.
LO 2.	Explain the clinical findings and laboratory findings of pediatric diseases have a high learning level in
	National Core Education Program.
LO 3.	Explain the treatment options of pediatric diseases that require urgent approach.
LO 4.	List the methods of diagnosis, treatment and prevention of pediatric diseases that are frequently
	encountered in the community.
LO 5.	List the symptoms and conditions related to Pediatrics.
LO 6.	List the preventive health services for newborns and children.
LO 7.	List the referral rules of newborn and pediatric patients.

LO 8.	List the principles of nutrition and care specific to different stages of newborn and childhood.
LO 9.	Explain the signs and symptoms of child neglect and abuse.

SKILLS

LO 10.	Obtain a general and problem-oriented history in the anamnesis format determined for pediatric diseases					
LO 11.	Perform and record comprehensive physical examination of newborn and child.					
LO 12.	Create a preliminary diagnosis list using anamnesis and physical examination findings.					
LO 13.	Requess imaging and laboratory tests required for definitive diagnosis and differential diagnosis of					
	pediatric diseases.					
LO 14.	Prepare patient files, keeps records and makes notifications.					
LO 15.	Follow up healthy children.					
LO 16.	Implement preventive health services for newborn and childhood.					
LO 17.	Refer newborn and pediatric patients under appropriate conditions when necessary.					
LO 18.	Make APGAR scoring.					
LO 19.	Provide postnatal stabilization of the newborn.					
LO 20.	Apply the first approach principles in pediatric patients with general body trauma.					
LO 21.	Refer the critically ill child who requires urgent surgical treatment to a pediatric surgeon by making the					
	necessary first attempts.					
LO 22.	Make diagnosis, referral and follow-up of pediatric cases requiring surgical intervention.					
LO 23.	Provide health education to families on child nutrition and care.					
LO 24.	Evaluate Childhood X-rays					
LO 25.	Take and evaluate EKG					
LO 26.	Perform various basic procedures according to the learning levels mentioned in the National Core					
	Education Program.(General Surgery Class 4 Log-book).					

BAHÇEŞEHİR ÜNİVERSİTESİ TIP FAKÜLTESİ

ATTITUDES

	"Scientia et amore vitae"
LO 27.	Adopt the principles of preventive medicine specific to the pediatric age.
LO 28.	Understand the importance of treating patients and their relatives in accordance with medical ethics.
LO 29.	Realize the importance of observing the psychological and social differences of the pediatric age group as well as biological.
LO 30.	Dress and look physically appropriate as a medical doctor.
LO 31.	Communicate effectively and empathetically with pediatric patients and their families.
LO 32.	Communicate effectively with the healthcare team.
LO 33.	Establish and maintain effective working relationships with colleagues and health care professionals.
LO 34.	Respect patient privacy information.
LO 35.	Recognize the importance of scientific method in the treatment of patients by approaching diseases within the framework of evidence-based medical practices.

LO 36.	Utilize the library and its resources to research clinical questions that arise during patient care and
	management.
LO 37.	Recognize the importance of cost-effective health care, quality assurance, and practice guidelines in
	today's health care environment.

CODES*	LEARNING LEVELS
Α	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
тт	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
к	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

Clinical Symptom/Sign/Condition	Diseases / Clinical Problems	Learning Level	Topic (1 hour=40 minutes)	Learning Objective
Bad breathe, changes in concioussness, cramps, seizure,	Acid-Base Disorders	А	Acid base disorder (1 hour)	LO 1, LO 36
Abdominal pain, diarrhea	Gastroenteritis*	TT-A-K	Acute Gastroenteritis (1 hour)	LO 1, LO 2, LO 3, LO 4, LO 6, LO 8, LO 36
Aniria, oliguria, hematuria, hypertension, color change in urine, edema	Acute Glomerulonephritis	T-A	Acute Glomerulonephritis (1 hour)	LO 1, LO 2, LO 3, LO 36
Anuria, oliguria, dsypnea, hypertension,	Acute Renal Failure	Т-А-К	Acute Renal Injury (1 hour)	LO 1, LO 2, LO 3, LO 6, LO 36
Fever, joint pain/swelling, movement disorders, heart murmur	Acute Rheumatic fever	т-к	Acute Rheumatic fever (2 hours)	LO 1, LO 2, LO 3, LO 6, LO 36
Menstrual disorder, weakness, fatigue, hypotension, muscle weakness, weight loss	Adrenal Insufficiency	ÖnT-A	Adrenal Insufficiency (1 hour)	LO 1, LO 36
Runny/congested nose	Allergic Rhinitis*	TT-K	Allergic Rhinitis (1 hour)	LO 1, LO 2, LO 3, LO 4, LO 6, LO 36
Anemia	Iron deficiency Anemia*	TT-A-K-i	Anemia in childhood (2 hours)	LO 1, LO 2, LO 3, LO 4, LO 6, LO 8, LO 36
Skin lesions [maculopapular, bullous, vesicular], pruritis,	Urticaria-Angioedema	ТТ-А-К	Angioedema (1 hour), Urticaria (1 hour)	LO 1, LO 2, LO 3, LO 4, LO 6, LO 36
Paresis/ paralysis	Hypotonic baby	Ön T	Approach a baby with hypotonia (1hours)	LO 1, LO 5, LO 36
Paresis/ paralysis			Approach a child with acute paralysis (1 hour)	LO 1, LO 5, LO 36
Palpitation, dyspnea, weakness and fatigue, hepatomegaly, hypotension, loss of appetite, heart murmur, edema, pollakiuria/nocturia, cyanosis	Heart Failure	T-A-K-İ	Heart failure (2 hour); Approach a child with heart failure (1 hour)	LO 1, LO 2, LO 3, LO 5, LO 6, LO 36
Headache, runny nose, stuffy nose, palpitation, hypertension	Essential hypertension*	TT-A-K-i	Approach a child with hypertension (1 hour)	LO 1, LO 2, LO 3, LO 5, LO 6, LO 36

Fever			Approach to a Child with Fever (1 hour)	LO 1, LO 2, LO 3, LO 5, LO 36
Seizure	Convulsion in newborn	A-K	Approach to a newborn convulsion (2 hour)	LO 1, LO 2, LO 3, LO 5, LO 6, LO 36
Changes in concioussnes, palpitation, weakness, fatigue,	Hypoglycemia*	TT-A-K-i	Approach to a newborn	LO 1, LO 2, LO 3, LO 4, LO 5, LO 6,
hypothermia, hyperthermia, seizure, tremor			hypogylicemia (2 hour)	LO 8, LO 36
Apnea, dyspnea, difficulty sucking, stridor	Newborn with Respiratory Distress	A	Approach to a Preterm Newborn with Respiratory Distress (1 hour)	LO 1, LO 36
Apnea, dyspnea, difficulty sucking, stridor	Newborn with Respiratory	А	Approach to a Term newborn	LO 1, LO 36
· • · · · · · · · · · · · · · · · · · ·	Distress		with respiratory distress (1 hour)	
Dyspnea, wheezing, cough, expectoration	Asthma	TT-A-K-İ	Asthma (1 hour)	LO 1, LO 2, LO 3, LO 4, LO 6, LO

GYNECOLOGY AND OBSTETRICS CLERKSHIP PROGRAM

GYNECOLOGY AND OBSTETRICS					
Timur Gürgan	Prof. M.D.	Head of the Department			
Tolga Taşçı	Prof. M.D.				
Cihan Çetin	Assoc. Prof. M.D.				
Aynur Adeviye Erşahin	Assoc. Prof. M.D.				
Mehmet Akif Sargın	Assoc. Prof. M.D.				
Cansu Kanlıoğlu	Assist. Prof. M.D.				
Nur Dokuzeylül Güngör	Assist. Prof. M.D.				
Halenur Bozdağ	Assist. Prof. M.D.				
Emine Eda Akalın	Assist. Prof. M.D.				
Merve Demir	Assist. Prof. M.D.				
Murat Yassa	Assist. Prof. M.D.				

AIM: The purpose of the Gynecology & Obstetrics clerkship is that, taking into account the goals specified in the National Core Education Program (NCEP), to equip students with the knowledge, skills, and attitudes necessary for being able to manage common gynecologic and obstetric diseases and conditions at the primary care level, to distinguish emergent situations, perform the first interventions, and refer to a specialist when necessary, to know and apply preventive health services on women's and reproductive health and to provide counseling on healthy sexual life.

LEARNING OBJECTIVES EŞEHİR ÜNİVERSİTESİ TIP FAKÜLTESİ

At the end of the program, the students should be able to:

KNOWLEDGE

LO 1.	List the diseases specific to gynecology and obstetrics included in the clerkship program according to the
	learning levels mentioned in the National Core Education Program.
LO 2.	Explain the clinical findings and laboratory findings of gynecologic and obstetrical diseases have a high
	learning level in National Core Education Program.
LO 3.	Explain the obstetric and gynecological conditions that require emergency intervention.
LO 4.	Define the criteria for diagnosis, treatment, follow-up and referral of common gynecologic diseases in
	primary care.
LO 5.	List the symptoms and conditions related to gynecology& obstetrics.

LO 6.	List the steps of follow-up of normal labor in primary care.
LO 7.	Define the healthy and risky pregnancy criteria.
LO 8.	Explain the basic concepts of reproductive health and sexual health.
LO 9.	Explain sexually transmitted diseases and prevention methods.
LO 10.	Recognize gynecology patients who require emergency intervention and lists the referral criteria.
LO 11.	Demonstrate knowledge necessary for long-term follow up and control in primary care.

SKILLS

LO 12.	Obtain a general and problem-oriented history in the anamnesis format determined for pregnant and			
	gynecology patient.			
LO 13.	Perform and record comprehensive physical examination of pregnant and gynecology patient.			
LO 14.	Create a preliminary diagnosis list using anamnesis and physical examination findings.			
LO 15.	Request imaging and laboratory tests required for definitive diagnosis and differential diagnosis of			
	gynecologic and obstetric diseases.			
LO 16.	Follow up pregnant and puerperant women.			
LO 17.	Make basic practices related to labor.			
LO 18.	Provide postpartum maternal care.			
LO 19.	Refer gynecologic and obstetric patients under appropriate conditions when necessary.			
LO 20.	Provide postnatal stabilization of the newborn.			
LO 21.	Apply emergency basic and advanced life support steps in life-threatening gynecological and obstetric			
	diseases.			
LO 22.	Report the notifiable diseases completely and duly.			
LO 23.	Arrange effective treatments for the patient and his/her sexual partner in sexually transmitted diseases.			
LO 24.	Perform various basic procedures according to the learning levels mentioned in the National Core			
	Education Program.(General Surgery Class 4 Log-book)			

ATTITUDES

LO 25.	Understand the importance of the place of gynecology among medical practices.
LO 26.	Realize the contribution of basic gynecological examinations to the diagnosis of diseases.
LO 27.	Dress and look physically appropriate as a medical doctor.
LO 28.	Communicate effectively and empathetically with gynecologic and obstetric patients and their families.
LO 29.	Communicate effectively with the healthcare team.
LO 30.	Establish and maintain effective working relationships with colleagues and health care professionals.
LO 31.	Respect patient privacy information.

LO 32.	Recognize the importance of scientific method in the treatment of patients by approaching diseases withir
	the framework of evidence-based medical practices.
LO 33.	Utilize the library and its resources to research clinical questions that arise during patient care and management.
LO 34.	Recognize the importance of cost-effective health care, quality assurance, and practice guidelines in today's health care environment.

CODES*	LEARNING LEVELS
А	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
TT	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
К	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

Clinical Symptom/Sign/Condition	Diseases / Clinical	Learning Level	Topic (1 hour=40 minutes)	Learning Objective
	Problems			
	Abnormal labor	А	Abnormal labor (1 hour)	LO 1, LO 3, LO 10, LO 35

Healthy sex life and counseling	LIST OF BASIC MEDICAL PRACTICES		Healthy Sexual Relationship (1 hour)	LO 1, LO 8, LO 35
Headache, vaginal bleeding	High-Risk Pregnancy	ÖnT-K	High-Risk Pregnancy (1 hour)	LO 1, LO 3, LO 4, LO 7, LO 10, LO 11, LO 35
Nausea, vomiting	Hyperemesis Gravidarum	TT-A	Hyperemesis Gravidarum (1 hour)	LO 1, LO 2, LO 3, LO 16, LO 35
Changes in skin and appendages (dryness, discoloration, etc.)	Rh mismatch in pregnancy	ÖnT-K	Immune and non-immune hydrops fetalis (Rh mismatch in pregnancy) (1 hour)	LO 1, LO 7, LO 35
Growth retardation	Intrauterine growth retardation	ÖnT-K	Intrauterine growth retardation, Macrosomia (1 hour)	LO 1, LO 35
Change of consciousness, visual impairment/loss, hearing impairment and tinnitus, micro - macrocephaly	Intrauterine infections	ÖnT-K	Intrauterine Infections (1 hour)	LO 1, LO 7, LO 35
Normal spontaneous delivery	LIST OF BASIC MEDICAL PRACTICES		Labor (Normal) (1 hour)	LO 5, LO 6, LO 35
		BAU-Ön T-K	Menopause (1 hour)	LO 1, LO 4, LO 5, LO 35
		BAU-BASIC	Menstrual cycle (1 hour)	LO 5
Menstrual Disorders	AU		Menstrual cycle disorders (1 hour)	LO 1, LO 4, LO 5, LO 35
Headache, vaginal bleeding	High-Risk Pregnancy	ÖnT-K	Multiple Pregnancies (1 hour)	LO 1, LO 7, LO 35
BAHÇE Pelvic mass	<i>'scientia et a</i>	more vitae	Pelvic Mass-Gynecology and Obstetrics- (1 hour)	LO 5
Pelvic pain, pelvic mass, urinary incontinance		BAU-Ön T	Pelvic organ prolapse (1 hour)	LO 1, LO 35
Dyspnea, difficulty sucking, syanosis	Perinatal Asphyxia	А-К	Perinatal Asphyxia and Fetal Distress (1 hour)	LO 1, LO 11

Menstrual disorder (amenorrhea), dysmenorrhea, hirsutism, infertility, hair loss	Polycystic Ovary Syndrome	ÖnT	Polycystic Ovary Syndrome (1 hour)	LO 1, LO 35
Urinary retention, vaginal discharge, vaginal bleeding	Cervical tumors	ÖnT-K	Premalignant and malignant diseases of CERVIX (1 hour)	LO 1, LO 35
Abdominal mass, pelvic mass	Ovarian tumors	Ön T	Premalignant and malignant diseases of OVARY (2 hours)	LO 1, LO 35
Menstrual disorder (amenorrhea), pelvic mass, vaginal bleeding	Uterine tumors	Ön T	Premalignant and malignant diseases of UTERINE TUBES (1 hour)	LO 1, LO 35
Menstrual disorder (amenorrhea), pelvic mass, vaginal bleeding	Uterine tumors	Ön T	Premalignant and malignant diseases of UTERUS (2 hours)	LO 1, LO 35
		BAU-Ön T	Premalignant and malignant diseases of VULVA (1 hour)	LO 1, LO 35
	Abnormal labor	А	Premature birth, Premature rupture of membranes (1 hour)	LO 1, LO 3, LO 7, LO 10, LO 11, LO 35
Anxiety, abdominal pain, breast pain, pelvic pain	Premenstrual Syndrome	Ön T	Premenstrual Syndrome (1 hour)	LO 1,, LO 35
Vaginal bleeding (pregnant, postpartum, postmenopausal, others)			Prepubertal,Pubertal Abnormal Vaginal Bleeding (1 hour)	LO 3, LO 10, LO 11, LO 35
Reproductive health and ethics BAHÇE	LIST OF BEHAVIORAL, SOCIAL AND		Sexual and reproductive Health and Rights (1 hour)	LO 8
Sexual dysfunctions	Sexual Dysfunctions	Ön T	Sexual Dysfunctions (1 hour)	LO 1, LO 8, LO 35
Headache, vaginal bleeding	High-Risk Pregnancy	ÖnT-K	Systemic Diseases in Pregnancy (1 hour)	LO 1, LO 7,LO 11, LO 35
		BAU-Ön T	Trophoblastic Diseases (1 hour)	LO 1, LO 35
Urinary Incontinence			Urinary Incontinence (1 hour)	LO 5

Menstrual disorder (amenorrhea), pelvic mass, vaginal		ä –		
bleeding	Uterine tumors	On T	Uterine Fibroids (1 hour)	LO 1, LO 35

MEASUREMENT & EVALUATION	
Formative Examination	10%
Clinical performance assessment (Log-book)	10%
Oral examination	40%
Theoretical examination	40%
TOTAL	100%

ANESTHESIOLOGY AND REANIMATION CLERKSHIP PROGRAM

ANESTHESIOLOGY AND REANIMATION		
Murat Konakçı	Assist. Prof. M.D.	Head of the Department
Gözde Argunşah Öztürk	Assist. Prof. M.D.	
Selma Başyiğit	Assist. Prof. M.D.	

AIM: The purpose of the clerkship is to introduce students to clinical anesthesia covering: perioperative assessment and optimization, monitoring techniques, anesthetic agents, management of acute medical care issues including resuscitation, acute pain, and application of basic science to clinical problems, acquisition of good basic airway skills, placement of intravenous cannula, and experience in more advanced airway management techniques

LEARNING OBJECTIVES:

At the end of the program, the students should be able to:

KNOWLEDGE

LO 1.	Get basic knowledge about the history of anesthesia.
LO 2.	Understand the breadth of opportunities available in anesthesia as a career.
LO 3.	List the components and types of anesthesia.
LO 4.	List NPO guidelines.
LO 5.	Determine ASA physical status and what it means.
LO 6.	Get the basic knowledge about the anatomy of the airway.
LO 7.	List the indications and complications of endotracheal intubation.
LO 8.	List the tests for evaluating a patient's airway.
LO 9.	List the equipment for endotracheal intubation. COTTUE
LO 10.	Describe the characteristics of most commonly used iv anesthetics, neuromuscular blockers, volatile
	anesthetic agents, and local anesthetics.
LO 11.	Explain local anesthetic toxicity.
LO 12.	Define the terms and goals of monitoring.
LO 13.	List the standards in monitoring guidelines.
LO 14.	Classify the types of monitoring.
LO 15.	Explain how to monitor the systems.
LO 16.	Define the blood and blood products.
LO 17.	Classify the parts of blood.
LO 18.	Explain the indications and complications of transfusion, and management of these complications.

LO 19.	Explain the aim of each step in the chain of survival.
LO 20.	List the sequence of CPR and AED.
LO 21.	Define brain death.
LO 22.	Explain the assessment ways of brain death.
LO 23.	Define the types of organ donation.
LO 24.	List the organ donation algorithm.
LO 25.	Explain the contraindications to donation.
LO 26.	Describe appropriate patterns of regional anesthesia usage, including indications, contraindications,
	principles of use, physiological effects, basic techniques, and recognition of the manifestations of toxicity.
LO 27.	Develop an approach to perioperative pain management.
LO 28.	Get the basic knowledge about the sepsis.
LO 29.	Explain respiratory failure.
LO 30.	Define shock.

SKILLS

LO 31.	Demonstrate the ability to assess a patient in the preoperative period.
LO 32.	Demonstrate the ability to take a focused history and physical examination, including anesthetic history
	and airway exam.
LO 33.	Determine proper preanesthetic medication.
LO 34.	Make endotracheal intubation on mannequins.
LO 35.	Show how to assess the patient in CPR.
LO 36.	Show how to perform chest compression and rescue breathing.
LO 37.	Understand the time for decision of recovery position and how to place the patient into the recovery
	position.

BAHÇEŞEHİR ÜNİVERSİTESİ TIP FAKÜLTESİ

ATTITUDES

"scientia et amore vitae"

LO 38.	Communicate effectively and empathetically with patients and their families, and recognize their high level
	of anxiety
LO 39.	Communicate effectively with the perioperative team noting anesthetic related concerns.
LO 40.	Establish and maintain effective working relationships with colleagues and health care professionals.
LO 41.	Maintain patient confidentiality
LO 42.	Understand the current legal and ethical aspects of consent for surgery, anesthesia, and blood transfusion.
LO 43.	Utilize the library and its resources to research clinical questions that arise during patient care and
	management.

CODES*	LEARNING LEVELS
А	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
тт	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
к	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

Clinical Symptom/Sign/Condition	Diseases/Clinical Problems	Learning Level	Topic (1 hour=40 minutes)	Learning Objective
		BAU-BASIC	Anesthetic agents (1 hour)	LO 10
Chronical pain	Blood and Products, Transfusion Complications	T-A	Blood Products- Transfusion Guidelines-Transfusion Complications (1hour)	LO 16, LO 17, LO 18, LO 19
		BAU-BASIC	Brain death and organ donation (1 hour)	LO 21, LO 22, LO 23, LO 24, LO 25

INFECTIOUS DISEASES AND CLINICAL MICROBIOLOGY CLERKSHIP PROGRAM

INFECTIOUS DISEASES AND CLINICAL MICROBIOLOGY		
Dilek Arman	Prof. M.D.	Head of the Department
Ahmet Cem Yardımcı	Assist. Prof. M.D.	

AIM: The purpose of the clerkship is to equip students with the necessary knowledge, skills and attitudes required to evaluate common infectious diseases within the scope of the National Core Education Program, to diagnose these diseases in primary care conditions, to distinguish emergent situations, to perform the first interventions, and refer to a specialist, and to formulate strategies for diseases prevention.

LEARNING OBJECTIVES:

At the end of the program, the students should be able to:

KNOWLEDGE

LO 1.	List the principles of diagnosis, treatment, prevention, and follow-up of infectious diseases included in the
	clerkship program according to the learning levels mentioned in the National Core Education Program.
LO 2.	Recognize the contribution of comorbidities and medications to a patient's immune status and risk for
	infection.
LO 3.	Explain how to approach the febrile patient including fever of unknown origin.
LO 4.	Implement principles of rational use of antibiotics at patient and hospital level.
LO 5.	Explain pathophysiology, clinical signs and symptoms, risk factors, diagnostic investigations, treatment and
	prevention ways of extrapulmonary tuberculosis.
LO 6.	Explain the principles of infections in immunosuppressed patients.
LO 7.	Explain the definition, epidemiology, clinical course, diagnosis, differential diagnosis, serologic evaluation,
10 7.	
	and antiviral treatment of acute hepatitis.
LO 8.	Explain etiology, epidemiology, pathophysiology, clinical signs and symptoms, differential diagnosis, and
	diagnostic investigations of mononucleosis.
LO 9.	List and explain various food borne infections, their sources, symptoms, and preventions.
LO 10.	Explain etiology, clinical signs and symptoms, diagnosis, prevention and treatment of gastroenteritis.
LO 11.	Explain the causes, symptoms, diagnostic methods, treatment options, and prevention measures of
	sexually transmitted infections.
LO 12.	Describe the etiology, epidemiology, signs and symptoms, diagnosis, and complications of streptococcal
	infection .

LO 13.	Describe the etiology, epidemiology, risk factors, signs and symptoms, diagnosis, and complications of skin
	and soft tissue infections (SSTI).
LO 14.	Explain the life threating SSTI .
LO 15.	Get knowledge about the rational antibiotic use in SST and bone infections.
LO 16.	Identify the brucellosis, explain the routs of transmission, clinical presentation, systemic complications,
	diagnostic investigations, treatment, and prevention methods .
LO 17.	Explain the etiology, algorithmic analysis, and laboratory evaluation of adenopathy.
LO 18.	Explain the pathophysiology, clinical presentation, prognosis, treatment, complications, and prevention
	ways of diabetic foot infections.
LO 19.	Describe the mode of transmission and mechanism of action for Clostridium tetani; explain the clinical
	presentation, differential diagnosis, treatment, and prevention measures of tetanus.
LO 20.	Discuss the etiology, epidemiology, clinical manifestations, and pre-diagnosis of HIV infection/AIDS, and
	get knowledge about the prevention of HIV transmission including health care settings.
LO 21.	Define malaria, schistosomiasis, ecchinococcus and leishmaniasis; describe the diagnosis, signs and
	symptoms, treatment and prevention measures.
LO 22.	Explain the etiology, pathophysiology, clinical features, diagnosis, and treatment of meningitis and
	encephalitis
LO 23.	Explain the etiology, pathophysiology, clinical features, diagnosis, treatment, complications, and
	prevention ways of Hydatic disease.
LO 24.	List the types, symptoms and routes of transmission for viral hemorrhagic fevers.
LO 25.	Explain the etiology, pathophysiology, clinical features, and diagnosis of Lyme disease.
LO 26.	Get knowledge about the immunization programs of high risk patients.

SKILLS BAHÇEŞEHİR ÜNİVERSİTESİ TIP FAKÜLTESİ

LO 28.	Obtain an appropriate medical history from patients and record it in a complete and concise manner.
LO 29.	Perform and record comprehensive physical examination.
LO 30.	Perform biological material study principles.
LO 31.	Provide decontamination, disinfection, sterilization and antisepsis.
LO 32.	Perform the laboratory material sampling and transfer processes.
LO 33.	Use the microscope effectively.
LO 34.	Perform various basic procedures according to the learning levels mentioned in the National Core
	Education Program (Infectious diseases and Clinical Microbiology Class 4 Log-book.)

ATTITUDES

LO 35.	Communicate effectively and empathetically with patients and their families.
LO 36.	Establish and maintain effective working relationships with colleagues and health care professionals.
LO 37.	Maintain patient confidentiality.
LO 38.	Utilize the library and its resources to research clinical questions that arise during patient care and
	management.

CODES*	LEARNING LEVELS
А	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
TT	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
К	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

PEDIATRIC SURGERY CLERKSHIP PROGRAM

PEDIATRIC SURGERY		
Tansu Salman	Prof. M.D.	

AIM: The purpose of the pediatric surgery clerkship is to equip students with the necessary knowledge, skills, and attitudes required to evaluate common pediatric surgery diseases within the scope of the National Core Education Program, to diagnose these diseases in primary care conditions, distinguish emergent situations, perform the first interventions, and refer to a specialist.

LEARNING OBJECTIVES:

At the end of the program, the students should be able to:

KNOWLEDGE

LO 1.	Define esophageal atresia and tracheoesophageal fistula, explain the causes, signs, and symptoms,		
	and the characteristic X-ray findings.		
LO 2.	Identify the appropriate evaluation of a patient with an anorectal malformation, describe the		
	embryologic basis of these malformations and their classification, and list the common associated		
	anomalies that may be present.		
LO 3.	Describe the signs, symptoms, and possible radiographic manifestations of foreign body aspiration,		
	and explain the management.		
LO 4.	Explain the etiology, appropriate evaluation, and management options of caustic ingestions.		
LO 5.	Explain the genetic causes and clinical characteristics of congenital diaphragmatic hernia.		
LO 6.	Describe the common causes and symptoms of pediatric gastrointestinal bleeding, perform the first		
	intervention, and refer the patient to a specialized center appropriately.		
LO 7.	Explain potential causes and outpatient treatments of constipation in pediatric patients.		
LO 8.	Define Hirschsprung Disease and explain the causes, risk factors, and symptoms.		
LO 9.	Plan the treatment of fluid and electrolyte in a child with emergency surgery.		
LO 10.	Describe the presentation and potential complications of inguinal hernias.		
LO 11.	Explain the etiology, appropriate evaluation, and management options of hydrocele.		
LO 12.	Define undescended testicle; explain causes, risk factors, symptoms, and complications.		
LO 13.	Describe conditions that may produce acute scrotum; determine which states require emergent		
	surgery; perform the first intervention, and refer the patient to a specialized center appropriately.		
LO 14.	Identify clinical features, diagnosis, and acute management of thoracic, abdominal, and genitourinary		
	trauma in pediatric patients and refer them to a specialized center appropriately		
LO 15.	Recognize the signs and symptoms of neonatal intestinal obstruction and explain the general		
	principles for treatment.		

LO 16.	Discuss the pathophysiology, signs, and symptoms, and management ways of gastroesophageal reflux	
	disease.	
LO 17.	Define infantile hypertrophic pyloric stenosis and explain pathophysiology, etiology, risk factors, signs	
	and symptoms.	
LO 18.	Define congenital abdominal wall defects; explain epidemiology, pathophysiology, and clinical	
	aspects.	
LO 19.	Discuss the clinical and pathologic features of congenital renal anomalies.	
LO 20.	Explain the etiology, and appropriate evaluation of obstructive uropathies in newborn.	
LO 21.	Explain the pathophysiology, clinical presentation, and diagnostic methods of vesicoureteral reflux.	
LO 22.	Describe predisposing factors, causes, signs, symptoms, diagnostic tests, and treatment of urinary	
	tract infection.	
LO 23.	Identify signs and symptoms of a surgically acute abdomen, propose an initial management plan that	
	includes appropriate and timely referral for potentially serious causes.	
LO 24.	Describe clinical features of biliary atresia and choledochal anomalies.	
LO 25.	Describe the etiology, risk factors, and clinical features of Meckel diverticulum and intussusception.	
LO 26.	Explain the pathophysiology and typical presentations of torticollis.	
LO 27.	Describe the pathophysiology, clinical features, and prognosis of neuroblastoma and Wilms tumors.	
LO 28.	Describe the normal process of sexual development for male and female infants and explain the	
	clinical findings of ambiguous genitalia.	
LO 29.	Define Hypospadias, Phimosis, and Paraphimosis; explain epidemiology, pathogenesis, clinica	
	presentation, complications, and surgical treatment.	
SKILLS	KALL	

LO 30.	Obtain an appropriate medical history from pediatric surgical patients.
LO 31.	Perform and record comprehensive physical examination. FAKULTES
LO 32.	Interpret common laboratory and radiologic tests.
LO 33.	Clerk, investigate and present patients during ward rounds.
LO 34.	Apply specific protocol in the operating room (scrubbing, gowning, gloving).
LO 35.	Perform various basic procedures according to the learning levels mentioned in the National Core
	Education Program (Infectious diseases and Clinical Microbiology Class 4 Log-book).

ATTITUDES

LO 36.	Communicate effectively and empathetically with patients and their families.	
LO 37.	Communicate effectively with the perioperative team.	
LO 38.	Establish and maintain effective working relationships with colleagues and health care professionals.	

LO 39.	Maintain patient confidentiality.
LO 40.	Understand the current legal and ethical aspects of consent for surgery.
LO 41.	Utilize the library and its resources to research clinical questions that arise during patient care and
	management.

CODES*	LEARNING LEVELS
Α	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
тт	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
к	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

UROLOGY CLERKSHIP PROGRAM

UROLOGY		
Murat Binbay	Prof. M.D.	Head of the Department
Kaan Gökçen	Assoc. Prof. M.D.	
Murat Bağcıoğlu	Assoc. Prof. M.D.	
Tümay İpekçi	Assoc. Prof. M. D	
Furkan Şendoğan	Assist. Prof. M.D.	
Feyzi Mutlu Kanat	Assist. Prof. M.D.	

AIM: The purpose of the urology clerkship is to equip students with the necessary knowledge, skills, and attitudes required to evaluate common urologic diseases within the scope of the National Core Education Program, to diagnose these diseases in primary care conditions, to distinguish emergent situations, to perform the first interventions, and refer to a specialist.

LEARNING OBJECTIVES:

At the end of the program, the students should be able to:

KNOWLEDGE

LO 1.	Get knowledge about the anatomy and physiology of the genitourinary system
LO 2.	Understand the scope of Urology as a specialty
LO 3.	Describe the signs, symptoms, and possible radiographic manifestations of foreign body aspiration, and
	explain the management
LO 4.	Describe the presentation and evaluation of a patient with acute renal colic
LO 5.	Evaluate pelvic pain, make differential diagnosis, and identify treatment options
LO 6.	Explain the etiology and appropriate assessment of obstructive uropathy related medical conditions
	and emergencies
LO 7.	Identify the most likely etiology when patients present with a chief complaint of dysuria or urethral
	discharge through history, diagnostic tests, and patient findings on examination to recommend
	effective treatment or refer the patient to a specialist
LO 8.	Explain the causes, symptoms, diagnostic methods, treatment options, and prevention measures of
	sexually transmitted infections
LO 9.	List the causes and symptoms of genital ulcers
LO 10.	Describe predisposing factors, causes, signs, symptoms, diagnostic tests, and treatment of urinary tract
	infections

LO 11.	Explain the causes and symptoms of urinary tract trauma, perform the first intervention, and refer the
	patient to a specialized center appropriately
LO 12.	Define pelvic organ prolapse, explain the pathophysiology, predisposing factors, and symptoms
LO 13.	Explain the etiology, pathophysiology, signs, and symptoms of urinary incontinence and enuresis, list
	treatment goals
LO 14.	Define hematuria, explain the pathophysiology, most common conditions, and evaluation
LO 15.	Get a general knowledge about urogenital system cancers (kidney cancer, bladder cancer, testicular
	cancer, and prostate cancer), understand the importance of early diagnosis, and learn the principles of
	follow-up
LO 16.	Explain the causes, signs, and symptoms of urinary retention
LO 17.	Define benign prostatic hyperplasia, explain the basic pathophysiology, clinical symptoms, essential
	components of the patient history and physical exam, and diagnostic tests
LO 18.	Explain the etiology, risk factors, common physical exam findings, and diagnostic methods of urolithiasis
	and describe medications effective for relief of pain
LO 19.	Describe the causes and treatments of male sexual dysfunction and male infertility
LO 20.	Explain causes, symptoms, and pre-diagnosis of varicocele
LO 21.	Discuss the differential diagnosis of inguinal/scrotal mass
LO 22.	Define undescended testicle; explain causes, risk factors, symptoms, and complications
LO 23.	Define Hypospadias, Epispadias, Phimosis, and Paraphimosis; explain epidemiology, pathogenesis,
	clinical presentation, complications, and surgical treatment
LO 24.	Explain the etiology, appropriate evaluation, and management options of hydrocele
LO 25.	Discuss the clinical and pathologic features of renal anomalies
LO 26.	Explain the causes, signs, and symptoms of testicular torsion and explain why it is an emergent condition
	and discuss the time for salvage of the testicle
LO 27.	Describe the pathophysiology, clinical features, and prognosis of Wilms tumor

SKILLS

"scientia et amore vitae'

10.28	Assuring the basic skills processory to evaluate a patient procenting with problems related to the
LO 28.	Acquire the basic skills necessary to evaluate a patient presenting with problems related to the
	genitourinary system, including history taking, physical examination, and the recording of data
LO 29.	Gain confidence in the performance of the genital examination and digital rectal examination
LO 30.	Interpret common laboratory and radiologic tests
LO 31.	Clerk, investigate and present patients during ward rounds
LO 32.	Apply specific protocol in the operating room (scrubbing, gowning, gloving)
LO 33.	Demonstrate the proper technique for Foley catheter insertion
LO 34.	Understand and perform suprapubic cystostomy tube placements in an emergency situation when
	urethral catheterization is not possible.

LO 35. Perform various basic procedures according to the learning levels mentioned in the National Core Education Program (Infectious diseases and Clinical Microbiology Class 4 Log-book)

ATTITUDES

LO 36.	Communicate effectively and empathetically with patients
LO 37.	Communicate effectively with the perioperative team
LO 38.	Establish and maintain effective working relationships with colleagues and health care professionals
LO 39.	Maintain patient confidentiality
LO 40.	Understand the current legal and ethical aspects of consent for surgery
LO 41.	Utilize the library and its resources to research clinical questions that arise during patient care and
	management.

CODES*	LEARNING LEVELS
А	Should be able to define emergent situation, perform emergent treatment, refer to a specialist when necessary
Ön T	Should be able to make a preliminary diagnosis, make the necessary preliminary procedures, and direct the patient to the specialist
т	Should be able to make a diagnosis and have knowledge about the treatment, make the necessary preliminary procedures, and direct the patient to the specialist
TT	Should be able to diagnose and treat
i	Should be able to perform long-term follow up and control in primary care
К	Should be able to apply preventive care (appropriate one/ones for primary, secondary, and tertiary preventions)

*Codes are designed according to the National Core Education Program.

Clinical Symptom/Sign/Condition	Diseases / Clinical	Learning Level	Topic (1 hour=40 minutes)	Learning Objective	
	Problems				
Disuria, hematuria, urinary retention, pollakuria, nocturia,	Benign Prostate	ÖnT	Benign Prostate Hyperplasia (1 hour)	LO 1, LO 31	
urinary incontinans	Hypertrophy			,	
Disuria, hematuria, urinary retention, color change in urine,	Bladder tumours	ÖnT-K	Bladder tumours (1 hour)	LO 1, LO 15, LO 31
