

Dear students,

You have to prepare an assignment as you will get a final grade within the scope of the 3rd Grade Research Methodology Course. For this purpose, you should search the literature by using the journals below. Then choose a quantitative original research article (not review/systematic review and not qualitative article) from the literature you searched. Please choose one of the articles published in the last 3 years from the journals only we recommend. After reading the article in detail please answer the questions in the file at the attachment (**Research Methodology Final Evaluation Form**). Then rename this file by writing your Student ID and Name and Surname (**Example: 2201971 SebahatDilekTorun**) and upload it to its learning.

Also, we ask you to mark the questions about the article with a highlighter on the article and write the number of the question on it. Then you need to save this highlighted document in pdf format with Student ID and Name and Surname and upload it to its learning (**Example: 2201971 SebahatDilekTorun**).

Please write your own sentences (**don't copy-paste the whole article to the evaluation form**).

**Please use only the following journals for the literature search**

No	Journal
1	BMC Public Health
2	European Journal of Environment and Public Health
3	American Journal of Public Health
4	Journal of Public Health (Oxford)
5	The Journal of Public Health Research
6	Perspectives in Public Health (SAGE)
7	Public Health (Elsevier)
8	The Lancet Public Health
9	Annual Review of Public Health
10	Journal of Public Health (Springer)
11	Frontiers in Public Health
12	Bulletin of World Health Organization
