2. Irregular Students

Year 5 | Group Assignments of Irregular Students to Professional Practice Blocks | 2026-2027

Key information

These students, having individually failed certain clerkships in the semesters before the implementation of professional practice blocks in the year 5, will be repeating these professional practice block components (clerkships) in the 2026-2027 academic year.

Within the professional practice block, these students are required to attend the theoretical lectures and participate in clinical rotations with their assigned subgroups for the relevant professional practice block components (clerkships), and take the sections of the professional practice block exam related to that component (clerkship).

The specific time allocated in the year 5 for the Social Responsibility Activities that all students are expected to carry out throughout their medical education is as follows: October 26, 27 and 30, 2026, March 12, 2027, May 20 and 21, 2027.

3. Rotations within Professional Practice Blocks

Year 5 | Assignments of Subgroups to Clinical Rotations within Professional Practice Blocks | 2026-2027

How to read the tables

X represents the main rotation group (A, B, C, or D) within the relevant professional practice block during the 8-week period.

Example: If MED5101 has the main group A, then the expression X1 + X4 means A1 + A4.
